Objective

Seeking a part-time position of software developer in Sports Injury Project with Assoc.

Education

University of South Australia Bachelor of Information Technology (Software Development)

Anticipated graduation date: 11/2020 Current GPA: **6.5**

What makes me qualified for the position

I consider myself a diligent person and a fast learner. I have passion and high dedication in programming and are very interested in participating real world app development projects. I have strong knowledge of programming and have achieved **High Distinction** in programming courses such as web Development, software development with C++ and most of my other degree courses. I am about to start my final year of study and have achieved a **GPA of 6.5/7** so far.

I am proactive in my study and have excellent problem-solving skills. I love to research beyond the course spectrum. Over holiday periods I often engage in some personal projects and self-study.

I also have good communication skills and a strong spirit of cooperation. In the group projects that I have participated in university, I always outdo my part of work and help my team members. I am patient, responsible and honest. I value the work that is assigned to me and endeavour to achieve the best result possible.
